

Flexible and Flawless

Get a hold of every critical moment instantly without compromise

Over IP

Extend, split and switch keyboard/mouse, high definition video, USB and audio signals over long distances on a network via Ethernet cable

Flexibility

Deploy computers and stations anywhere then let the KE6900/KE6940 extend the connections flawlessly.

Exceptional Video Quality

ATEN's advanced graphics processor delivers the same vibrant colors and razor-sharp video quality on the remote monitor no matter how far away the console is located.

Scalable with Dynamic Management

ATEN's KE Matrix Manager software makes it easy to administer all KE6900 devices over a network with an intuitive user-friendly web based GUI.

Recommended Applications for KE6940/ KE6900

Control and Monitoring

Media Post Production

Security and Surveillance

KE6940

DVI Dual Display KVM over IP Extender

- Unlimited transmission distance via over IP
- Flawless and lossless video quality output
- Flexible configurations: 1-to-1, 1-to-Many, Many-to-1 and Many-to-Many
- DVI digital and analog monitor support resolutions up to 1900 x1200 @ 60Hz
- AES-128 bit encryption for data security
- Offers USB 2.0, RS232, Audio functionality

KE6900

DVI Single Display KVM over IP Extender

- Unlimited transmission distance via over IP
- Flawless and lossless video quality output
- Flexible configurations: 1-to-1, 1-to-Many, Many-to-1 and Many-to-Many
- DVI digital and analog monitor support resolutions up to 1900 x1200 @ 60Hz
- AES-128 bit encryption for data security
- Offers USB 2.0, RS232, Audio functionality
